

**Meet Brie MacLaurin**, a real estate agent with Big Sky Brokers and a proud Helena local. Brie approaches the real estate process with sincere dedication, ensuring positive experiences for her clients. Known for her genuine and forthright communication style, integrity, determination, and professionalism, she is deeply committed to fostering community growth by supporting her clients in their real estate endeavors.

At the heart of Brie's service is her 20-year nursing career, a testament to her commitment to supporting people through important life transitions. Joining Big Sky Brokers was a natural evolution of her passion for assisting others, and she brings the same dedication and empathy to real estate that defined her nursing career. Her clients benefit not only from her expertise but also from her ability to connect on a personal level, making real estate transactions smoother and more enjoyable. For Brie, the most rewarding aspect of her work is the relationships she builds with her clients.

Born and raised in Helena, Brie feels fortunate to raise her own family in this community. She actively contributes through volunteering and assisting her partner, Omar, with remodeling projects. In her free time, she enjoys the outdoors with her children and furry friends, creating, and embodying the same sense of community in her personal life that she brings to her professional endeavors.

With Brie MacLaurin as your real estate partner, you can trust in her dedication, expertise, and genuine care for your unique real estate journey.
